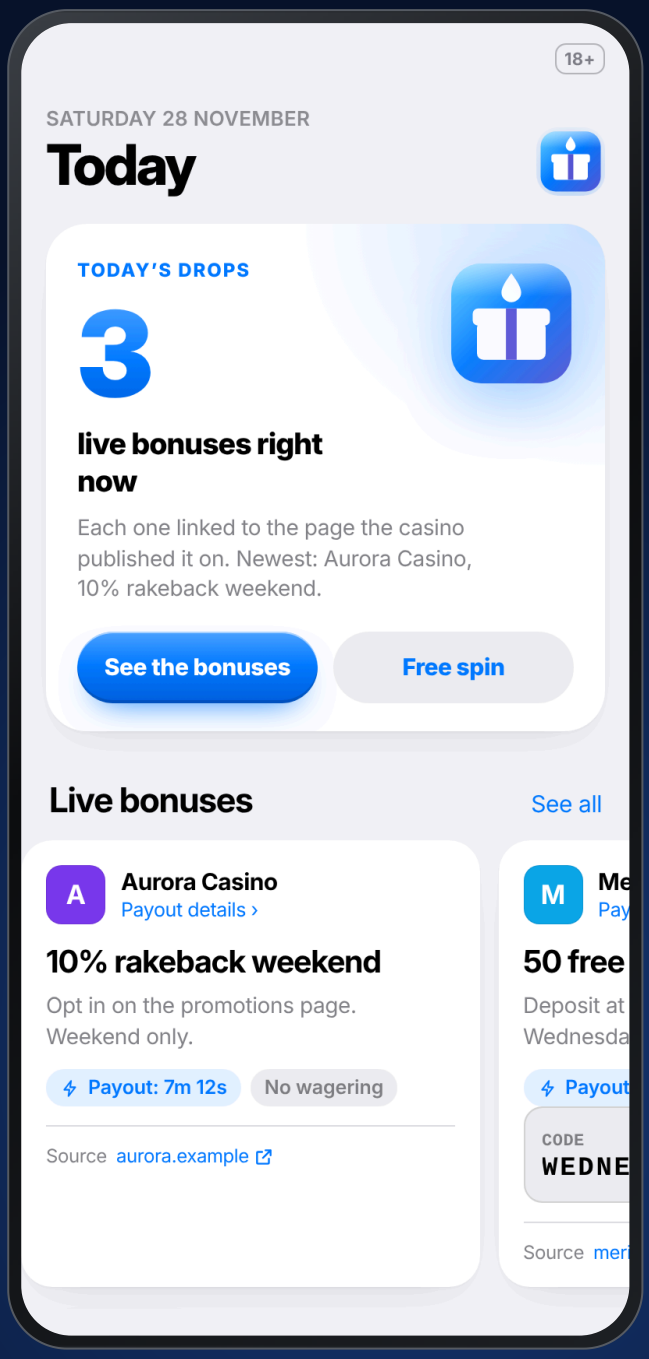
PUBLIC BONUS BOT + MINI APP FOR AFFILIATES AND COMMUNITIES

Bonus Drop

A Telegram bot that posts live casino bonuses, each linked to the page the casino published it on. With a free daily wheel, check-ins, invites and missions that grow your audience, and your partner links on every claim.

Custom design included · Every bonus with its source · Daily wheel · Check-in & invites · Broadcasts · 18+ gate

Try it live in Telegram **t.me/BonusDropvipbot**



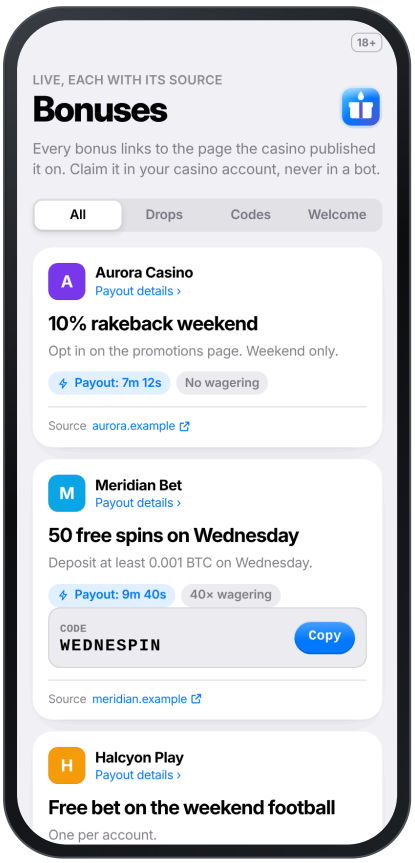
The running Bonus Drop Mini App with example casinos.

18+ · Gambling can be addictive. Play responsibly.

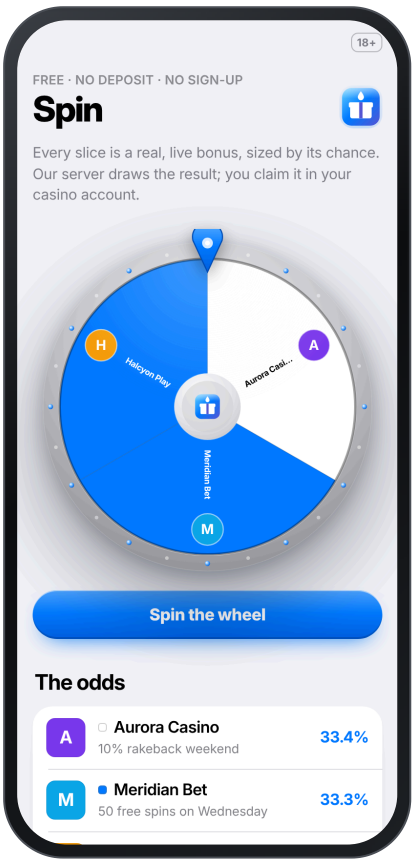
WHAT IT DOES

Bonuses your audience can trust.

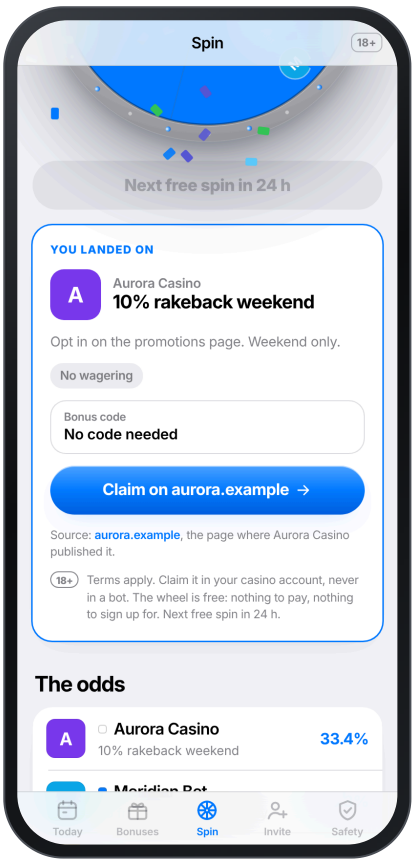
Bonus Drop shows only what can be checked: live bonuses with terms, wagering, code and expiry, each with the casino's own source page, plus welcome offers and withdrawal times marked reported or measured with their source.



Bonuses · each with its source



Spin · real bonuses, odds listed



Win card · claim on the casino

Live bonus feed

Filters for drops, codes and welcome offers. A bonus is public while it has not expired; "Expire now" ends one and keeps it on record.

Real-bonus wheel

Every slice is a live bonus, sized by its chance. The server draws; the page lists each slice's odds. Free, once a day, no sign-up. Hidden while fewer than 2 bonuses are live.

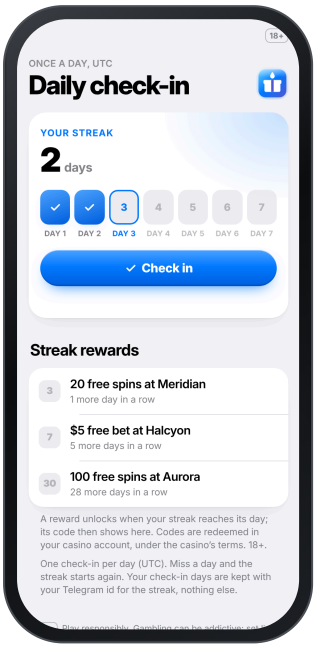
Your partner links

Every casino link goes through a tracked redirect; partner links are marked "sponsored" and labelled as such.

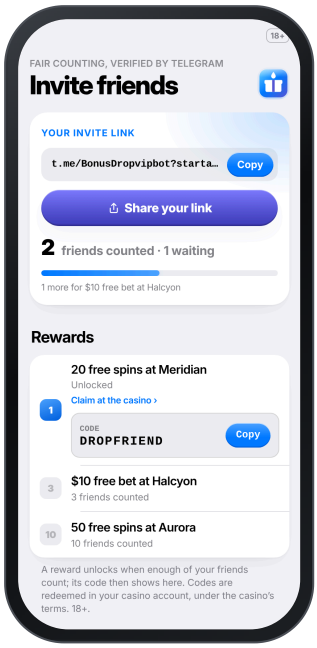
Example data · invented casinos (Aurora, Meridian, Halcyon) on example.com-style domains.

GROWTH

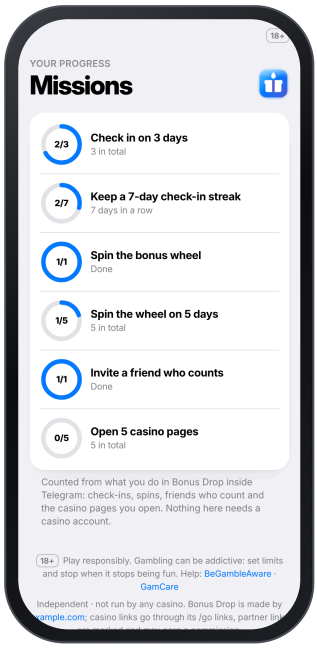
An audience that comes back and brings friends.



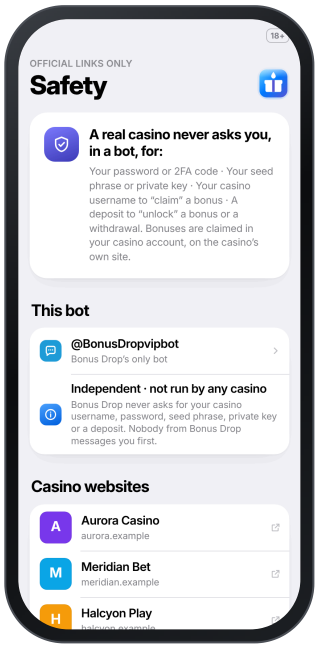
Daily check-in & streak rewards



Invite friends · fair counting



Missions



Safety · official links only

Daily check-in

Once per UTC day, recorded on the server. Streak milestones (e.g. 3, 7, 30 days) unlock a reward text and bonus code you set.

Invites that count

A personal t.me link. A friend counts only after opening the bot on two different days from their own device and network; shared devices, VPN and datacenter addresses are held for review.

Missions

Check in on 3 days, keep a 7-day streak, spin the wheel, invite a friend who counts, open 5 casino pages. No casino API needed.

Rewards you control

Check-in milestones and invite tiers, each with a reward, a code and an optional casino. Empty by default, and an empty list is not shown. A code reaches only a user who earned it.

Top inviters

A leaderboard appears only once 3 inviters have a counted friend; names are shortened (“Player ABCD”).

Daily drops

Subscribers get one message a day after 12:00 UTC, and only when a new bonus was added. /stop turns it off and deletes the chat id.

Example data · invented casinos (Aurora, Meridian, Halcyon) on example.com-style domains. Reward texts and codes on these screens are examples.

FOR THE OPERATOR · SAFETY

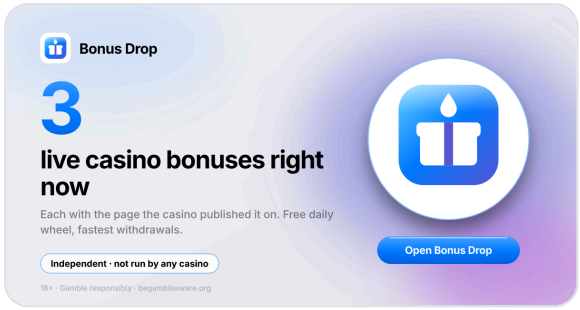
Simple to run. Honest by construction.

Admin

- **Bonuses**: casino, title, terms, optional code, wagering and expiry, and the https page the casino published it on.
- **Broadcast**: write, Preview (recipients, pacing, the exact message), then Confirm. Sent at 20 a second, Telegram's 429 respected, blocked chats removed; every message ends with the 18+ line and /stop.
- **Rewards**, wheel switch and weights per bonus, bot token and Connect.

Safety

- **18+ gate** on first open, a responsible-gambling footer and "Independent · not run by any casino" on every screen.
- The bot **never asks** for a casino username, password, seed phrase, private key or deposit; a message that looks like one gets a warning and is not stored.
- Check-ins, invites and missions need a launch **verified with this bot's token** (Telegram initData); a launch signed by another bot is refused.
- Referral signals are **salted hashes** of IP, subnet and device, kept 90 days. **No raw IPs**. Subscribers: chat id and day only.
- Answers private chats only.



The /start welcome card, drawn from the live bonus count
